Brief Introduction:

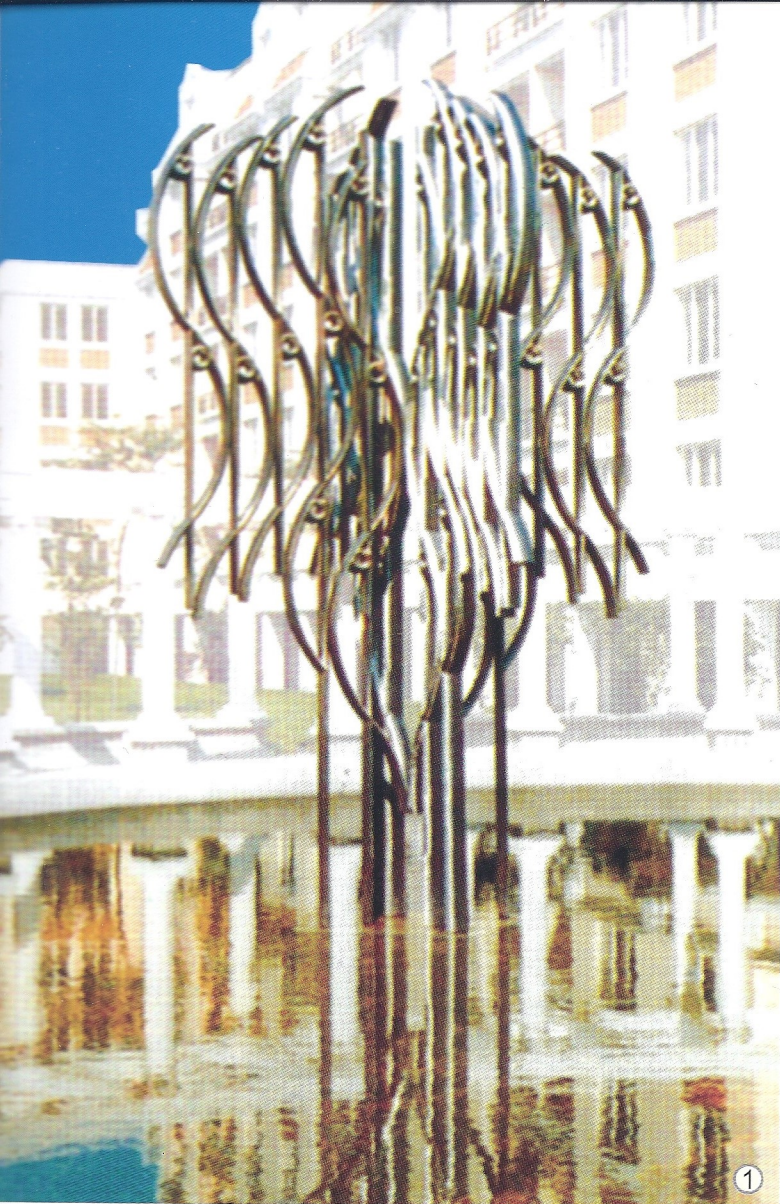

Shanghai Diya Industry Co., Ltd is established in 1980. In 1982, we succeeded in making a famous sculpture "Girls playing the water" with stainless steel, which is standing on the green-land of Shanghai Hong Qiao Development Zone. Thereby we became the first enterprise possessed the professional technology to produce varied artworks in using different material such as stainless steel, XX, copper, stone and so on.

Since the twenty years of engaging in sculpture production, Diya has trained large quantities of skilled technician and professional personnel that have accomplished over 800 sculpture works including several key projects in different materials. We win praises from the customers, the requesters and the sculptors by our cordial service and skillful technology. Facing the up-to-date development, Diya will keep on our believing to achieve the first-class services based on the honest and excellent working, and keep on the sincere cooperation with the sculptors, the architects, and all the friends from internal and external. We will continue to devote ourselves into creating more and more delicate artworks for the modern city.
